WINS AIR RACE

Lieut. Maynard Flies From New York to San Francisco in 25 Hours.

SPATZ AND KIEL IN NEW YORK

"Sky Pilot" Says He Attributes His Success to the Liberty Motor-Didn't Change Spark Plug After Leaving Chicago.

San Francisco, Oct. 13.-First Lieut. Belvin W. Maynard, piloting a De Havfland 4 airplane, leader of the westbound flyers in the transcontinental air derby, flew in to the Hall of Fame when he sped across San Francisco bay and alighted at the Presidio at 1:23:07 from Mineola, N. Y.

It was unofficially estimated that Maynard's actual flying time for the 2.701 miles was 24 hours 58 minutes 55% seconds.

Lieutenant Maynard, his observer, Master Signal Electrician W. E. Klein, and Trivie, the German police dog who secompanied them, were all considerably weatherbeaten and glad to get down to earth again, but in the best of spirits.

Maynard said weather conditions were perfect west of Salduro and that the climb over the Sierra Nevada mountains was easy.

The flyers were greeted by Lieut. General Hunter Liggett, commanding general of the Western department of the army; Maj. Gen. C. J. Menoher, director of the air service; Col. H. H. Arnold, commanding officer of the Western department air service; representatives of Mayor Rolph, and oth-

Tells of Record Dash. Describing his remarkable race, May-

nard said: "I attribute the success of our flight to the Liberty motor. It certainly has proved itself. We were not forced p change any spark plugs after we left Chicago. We ran almost wide open most of the way.

"Although we had plenty of time at night for sleep, Klein and I didn't sleep much, owing to the roar of the motor all day. We are still unable to hear well.

"We reached 13,000 feet crossing Lake Tahoe, which was the highest altitude we made. It was intensely cold. Most of the time we flew at 1,500 feet. where we averaged almost 120 miles. The only piece of bad luck we had on th trip was breaking the radiator at Chevenne, which delayed us for half

Bothered by Pacific Fog. "Crossing the Sierras was not se bad, although I had visions of being stranded when we ran into the low, smoky fog covering the San Francisco district.

NEWS REVIEW OF CURRENT EVENTS

Efforts to Accomplish a Tremendous Task.

MANY PLANS ARE SUGGESTED

Radical Elements in the Steel Strike Getting the Worst of It-British Railway Strike Ended-Senate Deadlock on Peace Treaty Possible.

By EDWARD W. PICKARD. Alarm over the condition of Presi-

dent Wilson was considerably allayed by the favorable reports issued last week by his physicians. He was kept quiet, in spite of his protests, and was not permitted to pay any attention to the mass of public business awaiting him. The result of this treatment was his steady improvement, though he may not be able to resume his official duties for some time. The inactivity irked him greatly and Mrs. Wilson and the doctors had to exercise their ingenuity to keep him from getting in communication with public men.

Of course the president could not attend the opening of the industrial conference which he had summoned but it began its sessions, in the Pan-American building, with 60 delegates public, the employers and labor. Secretary of the Interior Lane was made permanent chairman and then the delegates, split into groups, got busy on the program that should be followed Naturally, they were swamped with suggestions of all sorts and from all posts of the country, and the job of ting out the reasonable plans was a eig one. The rules adopted were designed to prevent the wasting of time by extremists and cranks who might

wish to talk at length on their theories, whether radical or reactionary. The somewhat hazy but mighty task set for this conference is the discovery of some method of accomplishing industrial peace, of bringing about an understanding between employers and workers, of ending or lessening strikes and lockouts so that production may be increased and high costs lowered. Every group, and probably every individual delegate, has more or less definite ideas as to how all this may be accomplished, and it is to be hoped the conference can hit on the right ones

and bring about their adoption. The first plan presented to the conference was for an immediate industrial truce to continue three months which would stop all strikes at once. This was proposed by Chairman Baruch of the public group, and follows the scheme adopted in France. The second proposition, made by Chairman Gompers of the labor group, was for mmediate arbitration of the steel strike by a board of six, two to be appointed by each group in the conference; this contemplated the immediate return of the strikers to work pending the results of the arbitration. A third resolution, offered by Gavin McNab of San Francisco, of the public group, was for a permanent arbitration board, of which all living ex-presidents shall

If Samuel Gompers and the other conservatives who have dominated, and presumably still dominate the American Federation of Labor, are wholly sincere, they must be secretly pleased with the developments in the Hitchcock told Secretary Tumulty to steel strike. It is becoming more and more apparent that the strike was forced and is being managed by the radicals who have been trying to gain control of union labor in America, and there is increasing evidence that those radicals are going to fall in both their immediate and their ultimate aims. Uncle Sam is taking a hand in the sitnation and the "reds," most of whom are foreigners in symapthy with, if not in actual communication with the bolsheviki of Europe, are finding that he is not to be trifled with. When the Mr. Hitchcock has admitted the neces- extradition of the former kaiser and radicals at Gary defied the local and sity of some sort of a compromise, but in trying him before a special court.

were sent there in a hurry and quiet statements, is unknown, was at once restored. Gen. Leonard Wood, commanding the central depart- having compelled the adjournment of ment, hastened from Omaha, where he | the parliament, the peace treaties with had been suppressing the race war, Germany and Austria were ratified by and took personal command in the royal decree of King Victor Emmanuel Industrial Conference Begins Its steel town. He turned his attention immediately to the reds and a raid on | days. All the British dominious havtheir headquarters was productive of quantities of revolutionary matter, to ratification by the empire is complete. say nothing of guns and ammunition. Martial law was proclaimed and then General Wood established a censorship on all news relating to raids and arrests by the military. It was made clear that the troops were there to preserve lives and property and not to interfere with the strike, but as soon as the radicals were routed and the soldiers were posted throughout the town the steel workers who wished to work returned to the mills in greatly increased numbers. In the entire Chicago district many more plants resumed operation, the average force be-

ing perhaps 50 per cent of normal. In the East also the authorities were active against the radicals, the most spectacular happening being a raid at Weirton, W. Va., in which 187 alleged members of the I. W. W. were seized marched to the public square and forced to kneel and kiss the American flag. Seven of them were held by federal agents and the rest were run out of the town. These were all Finns and the strike leader there said if it was true that they were reds organized labor would not defend them.

Though the people of the United States generally have no great love for the United States Steel corporation, and though Chairman Gary did not arouse any increased sympathy for present, equally divided among the it by his talk to the senate committee on labor, there is a widespread feeling that a victory for it in this strike will be beneficial to the country as a whole. prepared to hear all kinds of stories of The big railway strike in Great Bri-

> tain was settled by a compromise agreement, the main points of which Work to be resumed forthwith. On full resumption of work, negoti-

ations shall be continued with the understanding they will be completed before December 31, 1919. Wages will be stabilized in the United Kingdom at their present level up

to September 30, 1920. Any time after August 1, 1920, they may be reviewed in the light of circumstances then existing. No adult railway man shall receive less than 50 shillings a week so long as the cost of living is not less than

110 per cent above prewar prices. Also, the principle of the "open shop" was maintained. Senator Cummins says his commit-

labor questions-compulsory arbitrang strikes and lockouts on the transbefore which disputes between the would have four members from each side, and in case of a deadlock the question at Issue would be referred to board of five named by the president. Mr. Cummins predicted the senate would approve of the anti-strike features of the bill, despite the opposition of the American Federation of Labor

and the railway brotherhoods. The predicted deadlock in the senate seemed last week in a fair way to become a reality. Little progress toward a vote was made and Senator let the president know there would be

state authorities and staged some riot- | what the president will be willing to ous demonstrations the federal troops accept, in view of his uncompromising

The Italian governmental crisis and will become effective within 15 ing now ratified the German treaty, its

According to dispatches from Berlin, the threats of the supreme council to renew the blockade brought Germany to terms and her troops in the Baltic countries are being withdrawn. The government saves Its face by stating that Gen. von der Goltz has yielded to its appeal.

Another complication in the affairs southern Russia is announced. Gen. Simon Petlura, the Ukrainian leader, has declared war on General Denikine, the commander of the antibolshevik army that is steadily fighting its way up to Moscow. And at the same time comes word that the Russian volunteer army has surprised and attacked the Ukrainians, a violent battle resulting. Further north the troops of the north Russian government had some successes against the reds and Admiral Kolchak reported that his Siberian troops had recovered Tobolsk from them. An interesting story from Helsingfors, Finland, is to the effect that Trotzky tried to bring about the arrest of Lenine, but failed and instead was himself placed under arrest in Moscow on orders of the bolshevik

The American troops that have been serving in Siberia are beginning to come home, and the public should be the shocking hardships these lads think they have undergone. Furthermore, it is said to be certain that investigation into the actions of certain of their officers will be demanded. The morale officer who was sent to Siberia by the war department says there is little foundation for the complaints that are sure to be made as soon as the nen are discharged, but that will not stop the impending clamor.

The Italian council of ministers has proposed a solution of the Fiume question, namely, that the city be occupied by regular troops pending a decision by the peace conference as to its disposition; but this is to be conditional on Italy's being given the mandate to administer the affairs of the city under the League of Nations. The Italians were greatly exercised by the report that their government had received warnings as to Flume from both tee on interstate commerce is going to Great Britain and the United States. force a vote in congress on two great It is true that Baron Hardinge, under secretary for foreign affairs, told Italy tion and the right of organized labor that Britain was surprised that the strike regardless of the public wel- D'Annunzio matter was not being setfare.
